Let's be remarkable.

Start something big today. Apply now

Application Manager – Data Quality Services

Location: Warsaw

Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology –with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.

Whether in areas of mobility, industrial technology, consumer goods, or energy and building technology, we constantly provide highly efficient solutions to markets worldwide. In doing so, we don't just measure our successes in terms of economic growth, but above all in terms of improving people's quality of life, because we feel committed to values that are based on responsibility. This is only possible with the help of a global network of more than 405,000 highly committed employees, with pioneers who break new strategic ground every day. So why not join us in starting something remarkable? Make it happen.

Your task would be to take ownership of an internal application based on Address Quality Management (AQM) system called Data Quality Services. We need your functional and technical support in order to upgrade the application, complete the process of documentation and supervise general operational issues.

Your contribution to something big:

- Coordination SAP Development activities
- Taking part in further product development in terms of additional services or enhancement of existing ones
- Technical/Functional support for Data Quality Services including troubleshooting and debugging
- Collaboration with application stakeholders in an international environment
- Coordination of periodical Application upgrades
- Participation in application related ongoing projects
- Creation of IT concepts / technical specifications / documentation
- Coordination and Execution of application tests and support in issues solving

What distinguishes you:

- **Fluent English is a must**
- Master's Degree in Computer Science or a related discipline
- Basic experience in SAP solutions
- Basic program debugging skills (any language, ABAP would be ideally)
- Knowledge of postal address verification process and fuzzy search methods would be considered an advantage
- Good analytical and communication skills, open-minded, helpful and willing to learn

Benefits:

- Interesting tasks, wide development opportunities and trainings
- Employment contract ("umowa o pracę")
- Flexible working hours
- Professional development (trainings, development plans, defined career paths, international assignments opportunities)
- Working in a dynamic environment for an innovative company, with strong position on the worldwide market
- Benefit package (private medical care, sport pass, co-financing lunches, language and other trainings)
