Let's be remarkable.

Start something big today. Apply now

Java Designer – Software Developer

Location: Warsaw

Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology –with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.

Whether in areas of mobility, industrial technology, consumer goods, or energy and building technology, we constantly provide highly efficient solutions to markets worldwide. In doing so, we don't just measure our successes in terms of economic growth, but above all in terms of improving people's quality of life, because we feel committed to values that are based on responsibility. This is only possible with the help of a global network of more than 375,000 highly committed employees, with pioneers who break new strategic ground every day. So why not join us in starting something remarkable? Make it happen.

Your contribution to something big:

- Design and development of application for production process planning software used world-wide within Bosch corporation using Java technologies
- Ensure high code quality
- Actively participate in design/specification phase together with customers and technical consultants
- Participate in full life-cycle of the application including 3rd level support if necessary
- Work in international team of developers and consultants

What distinguishes you:

- Knowledge and 3+ years working experience in Java (JEE)
- Experience of ORM topics (Hibernate, JPA)
- Very good knowledge of Spring framework (especially Spring Boot, Spring Data, Spring MVC)
- Experience with building RESTful services
- Experience with at least one of the Javascript frameworks (preferred AngularJS)
- Understanding of the following concepts: Microservices architecture, OOD, OOA,
- Nice to have working experience in agile methodologies (SCRUM)
- Knowledge of GIT source control tool
- Knowledge of Maven build tool
- Completed studies in informatics, computer science or comparable field
- Very good proficiency in English in written and verbal communication

Benefits:

- Professional development (trainings, development plans, defined career paths, international assignments opportunities)
- Working in dynamic environment for innovative company with strong position on the worldwide market
- Benefit package (private medical care, sport pass, co-financing lunches, language and other trainings)
