Let's be remarkable.

Start something big today. Apply now

Cloud Developer (Java)

Location: Warsaw

Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology– with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.

Whether in areas of mobility, industrial technology, consumer goods, or energy and building technology, we constantly provide highly efficient solutions to markets worldwide. In doing so, we don't just measure our successes in terms of economic growth, but above all in terms of improving people's quality of life, because we feel committed to values that are based on responsibility. This is only possible with the help of a global network of more than 405,000 highly committed employees, with pioneers who break new strategic ground every day. So why not join us in starting something remarkable? Make it happen.

Your contribution to something big:

- Working in adaptive agile environment
- Continuous Delivery in cloud environments (preferably Azure Container Service, e.g. Kubernetes, Docker)
- Full-stack development

What distinguishes you:

- Experience 3-5 years in Java (incl. frameworks like Spring)
- Understanding of OOD and the clean code continuous refactoring principles
- Experience with cloud platforms
- Experience with API design & development
- Experience with Enterprise Messaging Systems
- Experience with cloud environments in IoT context (incl. Protocols like MQTT)
- Experience in Test Driven Development (TDD) and Pair Programming
- NoSQL databases (eg Mongo DB)
- Node.js / TypeScript

Benefits:

- Professional development (trainings, development plans, defined career paths, international assignments opportunities)
- Working in dynamic environment for innovative company with strong position on the worldwide market
- Benefit package (private medical care, sport pass, co-financing lunches, language and other trainings)
