Start something big today. Apply now

## JAVA Software Developer / SCRUM Leader

Location: Warsaw

**Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology –with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.**

Whether in areas of mobility, industrial technology, consumer goods, or energy and building technology, we constantly provide highly efficient solutions to markets worldwide. In doing so, we don't just measure our successes in terms of economic growth, but above all in terms of improving people's quality of life, because we feel committed to values that are based on responsibility. This is only possible with the help of a global network of more than 405,000 highly committed employees, with pioneers who break new strategic ground every day. So why not join us in starting something remarkable? Make it happen.

### Your contribution to something big:

- Acting as a leader to our software development team in terms of process improvement
- Functional and organizational guidance for SCRUM teams driven by Scrum of Scrums method
- Establishing efficient communication between SCRUM team and internal customers
- Taking real ownership on your services (build process, change reviews, interfaces alignment and agreement)
- Lead other team member towards building robust and easy to maintain solutions
- Taking care of development of cloud-native micro services and fitting up particular domain problems
- Actively participating in full software development lifecycle, including 3rd line of support
- Effective communication and work alignment in multinational globally distributed team

### What distinguishes you:

- Completed studies in computer science or comparable field
- At least 5 years of experience in Java Enterprise development (JEE) of REST services based applications
- Deep understanding of the following concepts: Micro-Service architecture, OOD, OOA, Cloud design patterns
- Experience and true love with SCRUM or other Agile methodologies
- Knowledge and experience in Java 8
- Very good knowledge of at least one UI JavaScript framework (preferred AngularJS)
- Very good knowledge of Spring framework, familiarity with different modules (MVC, Data, Cloud)
- Knowledge of source control tool (GIT)
- Knowledge of build tools (Maven)
- Working proficiency in English in written and verbal communication, German would be also beneficial

### Benefits:

- Professional development (trainings, development plans, defined career paths, international assignments opportunities)
- Working in dynamic environment for innovative company with strong position on the worldwide market
- Benefit package (private medical care, sport pass, co-financing lunches, language and other trainings)
