Let's be remarkable.

Start something big today. Apply now

PLC Engineer

Location: Warsaw

Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology—with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.

Whether in areas of mobility, industrial technology, consumer goods, or energy and building technology, we constantly provide highly efficient solutions to markets worldwide. In doing so, we don't just measure our successes in terms of economic growth, but above all in terms of improving people's quality of life, because we feel committed to values that are based on responsibility. This is only possible with the help of a global network of more than 405,000 highly committed employees, with pioneers who break new strategic ground every day. So why not join us in starting something remarkable? Make it happen.

Your contribution to something big:

- PLC/HMI software development for assembly line
- Development based on documentation from customer (E-Plan, CTS and Technical diagram).

What distinguishes you:

- Qualification: Bachelors in Engineering (Instrumentation or Electrical or Electronics)
- Total Work Experience: 2 - 5 Years
- Experience in PLC programming, preferably in tools like Indralogic, Codesys, Siemens Step 7
- Knowledge of PLC Programmable languages like Structured Text (ST) and Sequential flow chart (SFC)
- Knowledge of industrial communication protocols like Profibus, Ethernet/IP, ASI, OPC
- Preferably from PLC system house or worked in development of assembly line
- Proactive, good communication and interpersonal skills
- Open to learn new tools and technologies on the job
- Structured approach towards problem solving
- Knowledge on E-Plan is an added advantage
- Willingness to travel within EU region according to the project needs

Benefits:

- Professional development (trainings, development plans, defined career paths, international assignments opportunities)
- Working in dynamic environment for innovative company with strong position on the worldwide market
- Benefit package (private medical care, sport pass, co-financing lunches, language and other trainings)
