Let's be remarkable.

Start something big today. Apply now

Project Security Manager

Location: Warsaw

Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology—with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.

Whether in areas of mobility, industrial technology, consumer goods, or energy and building technology, we constantly provide highly efficient solutions to markets worldwide. In doing so, we don't just measure our successes in terms of economic growth, but above all in terms of improving people's quality of life, because we feel committed to values that are based on responsibility. This is only possible with the help of a global network of more than 405,000 highly committed employees, with pioneers who break new strategic ground every day. So why not join us in starting something remarkable? Make it happen.

Your contribution to something big:

- Evaluate requirement documents and identify security needs
- Get in dialog with the customer to shape and structure the collaboration within the project
- Coordinate and collaborate with multiple groups to develop security specifications
- Validate and verify the implemented measures
- Suggest improvements and reveal potentials to strengthen the quality of a product
- Organize security related activities along the product lifecycle
- Document results and develop custom made summary reports to satisfy both technical and non-technical stakeholders

What distinguishes you:

- Education in the field of computer science
- 4 years of experience within the area of security engineering
- 2 years of experience working in waterfall or scrum based projects
- 2 years of experience with thread modelling and risk analysis
- Ability to communicate effectively and present results to technical experts as well as to the management
- Experience in working with a globally located teams (onsite/offshore model)
- Analytical and reliable team player with high degree of initiative
- Fluency in English

Benefits:

- Professional development (trainings, development plans, defined career paths, international assignments opportunities)
- Working in dynamic environment for innovative company with strong position on the worldwide market
- Benefit package (private medical care, sport pass, co-financing lunches, language and other trainings)
