Let's be remarkable.

Start something big today. Apply now

SAP FI Consultant

Location: Warsaw

Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology– with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.

Whether in areas of mobility, industrial technology, consumer goods, or energy and building technology, we constantly provide highly efficient solutions to markets worldwide. In doing so, we don't just measure our successes in terms of economic growth, but above all in terms of improving people's quality of life, because we feel committed to values that are based on responsibility. This is only possible with the help of a global network of more than 405,000 highly committed employees, with pioneers who break new strategic ground every day. So why not join us in starting something remarkable? Make it happen.

Your contribution to something big:

- Gathering business requirements and translating them into specifications
- Driving the definition and implementation of designed solutions
- Leading creation of functional design to develop SAP FI solutions
- Driving the implementation, standardization, simplification and integration process of ERP technologies considering the defined roadmap
- Defining solution scope and implementation of change requests
- Managing the end user adoption and business process support after Go-Live
- Ensuring integration of SAP FI solutions across functions in running IT products

What distinguishes you:

- Several years of functional experience with SAP FI - including but not limited to solution development
- Proven record of being involved in full-cycle projects in the field SAP FI
- Strong understanding of the financial processes and procedures (e.g. assets accounting, accounts payable, accounts receivable, etc.)
- Expertise with mapping business requirements into IT specifications
- Experience within SAP FI global scope projects (being part of international teams)
- Experience within UX in IT product/projects will be a plus
- Good communication and presentation skills
- ABAP knowledge will be a plus
- Very good English

Benefits:

- Professional development (trainings, development plans, defined career paths, international assignments opportunities)
- Working in dynamic environment for innovative company with strong position on the worldwide market
- Benefit package (private medical care, sport pass, co-financing lunches, language and other trainings)
