www.bosch-career.pl

Let's be remarkable.

Start something big today. Apply now for position:

Senior Android Developer Mobile Business

Location: Warsaw

Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology – with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.

Whether in areas of automated mobility, Internet of Things, Smart Home solutions with innovative ideas we are keep setting new standards to create integrated future. This is only possible with the help of a global network of more than 410,000 highly committed employees, with pioneers who break new technological ground every day. So why not join us in starting something remarkable?

Your contribution to something big:

- ▶ Our Android developers need to be creative and progressive with their design, development and implementation. They need to be passionate about mobile app development and emerging development trends to anticipate next generation mobile functionality. In short, they will be prototyping the next wave of mobile consumer-facing applications for the global consumption of our products and services.
- ▶ Your work will include, but will not be limited to:
 - Designing and building advanced applications for the Android platform
 - Continuously discover, evaluate, and implement new technologies to maximize development efficiency
 - Collaborating with cross-functional teams to define, design, and ship new features
 - Unit-testing code for robustness, including Edge cases, usability, and general reliability
 - Keeping that ever important development documentation up-to-date
 - Working on enhancing and maintaining existing mobile apps
 - Participating in regular SCRUM team meetings to: estimate work; review and plan current and next sprints; estimate and/or revise project estimates, time-lines, feasibility and alternative solutions

Benefits:

- ▶ Secure employment based on contract of employment
- ▶ Working in a dynamic environment in international culture
- ▶ Broad access to trainings, conferences and webinars
- ▶ Private medical care, sport pass, co-financing lunches, language and other training

What distinguishes you:

- ▶ **Personality:** team player, excellent interpersonal skills, ability to communicate and collaborate with stakeholders across business & technical teams, ability to communicate complex ideas in a clear, concise manner both verbally and in writing as well as comfortable working directly with clients
- ▶ **Working Practice:** analytical thinking, independent, structured, results oriented, responsive and flexible to evolving responsibilities and changing environments
- ▶ **Experience and Knowledge:** Minimum 2 years' Android development experience - hands-on native Android applications in Java, Kotlin, Eclipse, SCM, Git, etc. More than 2 published apps in Google Play
- ▶ **Enthusiasm:** ready to take on some of technology's greatest challenges and make an impact in the organization
- ▶ **Languages:** very good English skills both written and spoken
- ▶ **Education:** completed degree with a focus on information technology (Computer Science etc.) or similar qualification
