Start something big today. Apply now.

Software developer/IT Security

Location: Warsaw

Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology- with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.

Whether in areas of mobility, industrial technology, consumer goods, or energy and building technology, we constantly provide highly efficient solutions to markets worldwide. In doing so, we don't just measure our successes in terms of economic growth, but above all in terms of improving people's quality of life, because we feel committed to values that are based on responsibility. This is only possible with the help of a global network of more than 405,000 highly committed employees, with pioneers who break new strategic ground every day. So why not join us in starting something remarkable? Make it happen.

Your contribution to something big:

- Ensuring the operation of web applications
- Independent operation of .Net applications with SQL server backend: updates, system monitoring and user administration
- Installation of web applications, as well as the installation of new releases and patches
- Development of a monitoring solution incl. alarming
- Troubleshooting, if necessary adapting the architecture in case of sizing problems
- Communication with the manufacturer, for example in fault analysis
- Close cooperation with those departments (bugtracking, error analysis, sizing)
- Securing the current system architecture
- Support in the creation of concept documents (operational concept)

What distinguishes you:

- Experience in the operating systems Linux and Windows Server
- Experience in dealing with the Microsoft IIS Application Server
- Knowledge of SQL, especially the Microsoft SQL database
- Practical experience with open source web servers Apache, Tomcat or Nginx are beneficial
- Basic understanding of IAAS architectures and modern web applications
- Knowledge in software development (ideally in Java) would be an advantage
- Languages: very good knowledge of English spoken and written, knowledge of German would be an advantage
- Self-motivated, structured and goal-oriented working style combined with excellent communication and team skills
- Knowledge of scripting languages will be an advantage

Benefits:

- Professional development (trainings, development plans, defined career paths, international assignments opportunities)
- Working in dynamic environment for innovative company with strong position on the worldwide market
- Benefit package (private medical care, sport pass, co-financing lunches, language and other trainings)
