Start something big today. Apply now for position:

Software Developer in Security Department

Location: Warsaw

Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology – with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.

Whether in areas of automated mobility, Internet of Things, Smart Home solutions with innovative ideas we are keep setting new standards to create integrated future. This is only possible with the help of a global network of more than 410,000 highly committed employees, with pioneers who break new technological ground every day. So why not join us in starting something remarkable?

Your contribution to something big:

- ▶ Develop global vulnerability management system with multiple interfaces
- ▶ Write scripts and programs to automate administration and testing operations (Shell, Python, Ruby)
- ▶ Integration of external data sources to increase security testing efficacy
- ▶ Integration scanning tools with reporting and ticketing systems
- ▶ Cooperate with technical and business partners all over the world

What distinguishes you:

- ▶ Experience (min. two years) in:
 - Web application development (Java, Spring, Hibernate)
 - Front-end technologies (e.g. AJAX, Angular/2)
 - Using API (REST, GraphQL, JSON, XML)
 - Transact-SQL
- ▶ You're familiar with:
 - Scripting (shell, python, ruby)
 - Data analysis
- ▶ You're ready to work in the international environment
- ▶ You can communicate in English at work.

Benefits:

- ▶ Secure employment based on contract of employment
- ▶ Working in a dynamic environment in international culture
- ▶ Broad access to trainings, conferences and webinars
- ▶ Private medical care, sport pass, co-financing lunches, language and other training
