Start something big today. Apply now.

Specialist for IT Network Security (m/w)

Location: Warsaw

Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology- with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.

Whether in areas of mobility, industrial technology, consumer goods, or energy and building technology, we constantly provide highly efficient solutions to markets worldwide. In doing so, we don't just measure our successes in terms of economic growth, but above all in terms of improving people's quality of life, because we feel committed to values that are based on responsibility. This is only possible with the help of a global network of more than 405,000 highly committed employees, with pioneers who break new strategic ground every day. So why not join us in starting something remarkable? Make it happen.

Your contribution to something big:

- Acting as a specialist in the IT security team (service landscape: network segmentation, perimeter security, Internet Access, Network connection to external companies, merger & carve-outs, remote access of external employees)
- Being responsible of approval processes and representing them to the customers
- Processing of ticket-based change requests
- Verification of existing configurations of firewalls and proxies
- Analyzing customer application architectures and evaluating it against the IT network security policies
- Discovering new areas of activity and needed changes to the services to further optimize the product and process landscape

What distinguishes you:

- Experience in the area of IT infrastructure area, focus on IT security and application architectures
- Knowledge of IT security infrastructure concepts, cross functional application architectures, network technologies (i.e.: firewall, proxy, LAN, WAN), internet protocols (i.e.: TCP/IP, HTTP), operating systems
- Certifications e.g. CISSP, CISM, CISA, etc. are an advantage
- Degree in Information Technology
- Proficiency in English, ideally German skills (willingness to learn the language would be an advantage)
- Ability to communicate, work with international teams

Benefits:

- Professional development (trainings, development plans, defined career paths, international assignments opportunities)
- Working in dynamic environment for innovative company with strong position on the worldwide market
- Benefit package (private medical care, sport pass, co-financing lunches, language and other trainings)
