

BOSCH
Technologia bliżej nas

Welcome to a place where your ideas lead to something big.

www.bosch-career.pl

Let's be remarkable.

Start something big today. Apply now

Technical Application Manager “Product Information Management (PIM)”

Location: Warsaw

Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology –with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.

Whether in areas of mobility, industrial technology, consumer goods, or energy and building technology, we constantly provide highly efficient solutions to markets worldwide. In doing so, we don't just measure our successes in terms of economic growth, but above all in terms of improving people's quality of life, because we feel committed to values that are based on responsibility. This is only possible with the help of a global network of more than 405,000 highly committed employees, with pioneers who break new strategic ground every day. So why not join us in starting something remarkable? Make it happen.

Your contribution to something big:

- further development of our PIM platform in terms of additional functionalities & components & interfaces
- cooperate with customer and internal/external service providers in the context of small/medium IT projects (agile or waterfall)
- perform IT-tests (e.g. function test, integration test, interface test, migration test)
- import partly structured data (e.g. marketing texts) and digital assets (e.g. pictures, videos) into the PIM/DAM systems.
- perform in place migrations into the PIM systems
- perform error analysis and drive the solutions of 3rd level incident and problem tickets

What distinguishes you:

- Bachelor or Master's Degree in Computer Science or Information Technology or equivalent
- Min. 3 years of professional experience in IT Software Development or technical Application Management
- Very good language skills in English
- solid knowledge in:
 - the development of Java Web applications (TomCat, Wildfly, Web Services, ...)
 - the area of XML (XSD, XPath, ...) and XSL transformations
 - the area of relational databases (Oracle, SQL, ...)
 - the use of Linux (file permission, folder creation, starting and stopping processes)
- optional:
 - PIM Know How (Product Information Management)
 - Asset Management experience
 - Migration experience
 - Agile project experience

Benefits:

- Professional development (trainings, development plans, defined career paths, international assignments opportunities)
- Working in dynamic environment for innovative company with strong position on the worldwide market
- Benefit package (private medical care, sport pass, co-financing lunches, language and other trainings)
