Let's be remarkable.

Start something big today. Apply now

Technical Specialist – Systems Integration

Location: Warsaw

Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology–with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.

Whether in areas of mobility, industrial technology, consumer goods, or energy and building technology, we constantly provide highly efficient solutions to markets worldwide. In doing so, we don't just measure our successes in terms of economic growth, but above all in terms of improving people's quality of life, because we feel committed to values that are based on responsibility. This is only possible with the help of a global network of more than 405,000 highly committed employees, with pioneers who break new strategic ground every day. So why not join us in starting something remarkable? Make it happen.

Your contribution to something big:

- Coordination of system architecture
- Establishing system connections and data replication between SAP and non-SAP systems
- Data transformation and preparation as basis for data quality target system
- Monitoring and troubleshooting of system connection issues
- Documentation and optimization of processes in the area of systems integration

What distinguishes you:

- Bachelor's degree in Computer Science, Engineering or equivalent
- 2+ years of experience in SAP projects, in the area of data integration
- Experience in creating system connections, data replication, troubleshooting, non-dialogue users authorizations management, monitoring of replication tasks
- Knowledge of Smart Data Integration technology or another data replication technology (e.g. SLT, web-service, RFC etc.)
- Experience in data transformations and big data analysis
- Very good command of SQL
- Experience in SAP HANA or HANA Studio is a big plus
- Good English verbal and written communication (min. B2)

Benefits:

- As a member of our team, you'll have a chance to participate in pioneering project for introduction and development of two innovative SAP modules: Smart Data Integration (SDI) and Agile Data Preparation (ADP)
- Professional development (trainings, development plans, defined career paths, international assignments opportunities)
- Working in dynamic environment for innovative company with strong position on the worldwide market
- Benefit package (private medical care, sport pass, co-financing lunches, language and other trainings)
