Start something big today. Apply now for position:

Test Automation Engineer

Location: Warsaw

Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology – with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.

Whether in areas of automated mobility, Internet of Things, Smart Home solutions with innovative ideas we are keep setting new standards to create integrated future. This is only possible with the help of a global network of more than 410,000 highly committed employees, with pioneers who break new technological ground every day. So why not join us in starting something remarkable?

Your contribution to something big:

- ▶ Evaluate non-functional requirement documents and identify performance test needs; types of tests, scripting scenarios, volume projections, etc.
- ▶ Coordinate and collaborate with multiple groups to determine, gather and verify performance and functional test needs
- ▶ Develop a performance and functional test plan/strategy document that includes short and long- term test objectives, types of tests required, workload matrix, scenarios, etc
- ▶ Perform heap and thread analysis, database deadlock detection, understand and detect resource contention, etc.
- ▶ Suggest improvements and configuration changes that improve performance
- ▶ Document test results and develop custom made summary reports to satisfy both technical and non-technical stakeholders

What distinguishes you:

- ▶ Education in the field of computer science
- ▶ Experience in performance testing and engineering
- ▶ Experience with: relevant testing frameworks (Java/.Net)
- ▶ Integration testing, system tests, user acceptance tests
- ▶ Preferred knowledge in: UI testing using selenium, test execution using Azure
- ▶ Able to communicate effectively and clearly present technical approaches and findings
- ▶ Experience working with a globally located teams (onsite/offshore model)
- ▶ Analytical and reliable team player with high degree of initiative
- ▶ Fluency in English

Benefits:

- ▶ Secure employment based on contract of employment
- ▶ Working in a dynamic environment in international culture
- ▶ Broad access to trainings, conferences and webinars
- ▶ Private medical care, sport pass, co-financing lunches, language and other training
