Let's be remarkable.

Start something big today. Apply now

## UX Interaction Designer with SAP Experience

Location: Warsaw

**Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology—with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.**

Whether in areas of mobility, industrial technology, consumer goods, or energy and building technology, we constantly provide highly efficient solutions to markets worldwide. In doing so, we don't just measure our successes in terms of economic growth, but above all in terms of improving people's quality of life, because we feel committed to values that are based on responsibility. This is only possible with the help of a global network of more than 405,000 highly committed employees, with pioneers who break new strategic ground every day. So why not join us in starting something remarkable? Make it happen.

### Your contribution to something big:

- Designing outstanding digital products and services and using the creative and collaborative environment in new UX studio
- Collaboration with different disciplines (e.g. user researchers, software developers and product managers) and domain experts in an international context
- Creation and application of wireframes, flows and interaction guidelines for software products
- Creation of customer journey maps, stakeholder maps and service blueprints

### What distinguishes you:

- Collaboration with SAP developers who need UX enablement
- Interest of B2B Processes (e.g. logistics, purchase, CRM)
- At least 3 years of working experience in the field of interaction design and service design
- Creation and application of wireframes, flows and interaction guidelines for software products
- Creation of customer journey maps, stakeholder maps and service blueprints
- High level of proficiency in Adobe CS, Balsamiq and Axure RP, SAP Build programming experience
- Basic knowledge for SAP technology and feasibility
- Understanding SAP processes and flow charts
- Experience with SAP FIORI design guidelines and SAP UI5 design patterns
- Experience with S/4 HANA & HANA Cloud Platform
- High level of English language proficiency required

### Benefits:

- Professional development (trainings, development plans, defined career paths, international assignments opportunities)
- Working in dynamic environment for innovative company with strong position on the worldwide market
- Benefit package (private medical care, sport pass, co-financing lunches, language and other trainings)
