Let's be remarkable.

Start something big today. Apply now

## UX User Researcher

Location: Warsaw

**Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology—with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.**

Whether in areas of mobility, industrial technology, consumer goods, or energy and building technology, we constantly provide highly efficient solutions to markets worldwide. In doing so, we don't just measure our successes in terms of economic growth, but above all in terms of improving people's quality of life, because we feel committed to values that are based on responsibility. This is only possible with the help of a global network of more than 405,000 highly committed employees, with pioneers who break new strategic ground every day. So why not join us in starting something remarkable? Make it happen.

### Your contribution to something big:

- Applying User Research methods (e.g. Contextual Inquiry, Interview, Focus Group, User Testing) and use the creative and collaborative environment in our new UX studio
- Collaborating with different disciplines (e.g. interaction designers, software developers, product managers) and domain experts (e.g. manufacturing, legal, automotive) in an international context
- Building up and support the Bosch UX network. Define, apply and communicate User Research methods and standards for the whole organization

### What distinguishes you:

- Able to work in cross-functional teams
- High level of customer orientation
- At least 3 years of working experience in user-centered development of products and services in a design agency, research institute or UX department of a company
- High level of proficiency in a variety of user research and testing methods
- High level of German and English language proficiency required
- Diploma or Bachelor's/Master's degree in psychology, sociology, cultural anthropology or a comparable field of study, ideally with empirical user research as the main focus

### Benefits:

- Professional development (trainings, development plans, defined career paths, international assignments opportunities)
- Working in dynamic environment for innovative company with strong position on the worldwide market
- Benefit package (private medical care, sport pass, co-financing lunches, language and other trainings)
