Let's be remarkable.

Start something big today. Apply now

Software Developer

Location: Warsaw

Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology—with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.

Whether in areas of mobility, industrial technology, consumer goods, or energy and building technology, we constantly provide highly efficient solutions to markets worldwide. In doing so, we don't just measure our successes in terms of economic growth, but above all in terms of improving people's quality of life, because we feel committed to values that are based on responsibility. This is only possible with the help of a global network of more than 410,000 highly committed employees, with pioneers who break new strategic ground every day. So why not join us in starting something remarkable? Make it happen.

Your contribution to something big:

- Be part of team which is auditing the secure operation processes for all Bosch owned SAP systems
- Have the responsibility to provide a sustainable and secure operation of the used audit software
- Support the audit team by further developing of the existing audit software and bring it a new level of user experience
- Developing technical solutions and resolve technical issues
- Closely interact with customers and understand the business need
- Delivering insights and suggestions for continuous improvement in the existing technical solutions
- Building and growing teams to achieve organization's goals and targets
- Creating a culture of continuous learning and self-development

What distinguishes you:

- University / college degree in information technology
- Knowledge in Database Technology (MS SQL Server, ODBC) and Programming (MS Access, T-SQL Programming, VBA Scripting)
- Understand complex topics/requirements
- Work independently
- Demonstrate a keen interest to learn and contribute to the team
- Have perseverance in solving problems and a willingness to continuously improve IT tools
- Excellent English (writing & speaking)

Benefits:

- Professional development (trainings, development plans, defined career paths, international assignments opportunities)
- Working in dynamic environment for innovative company with strong position on the worldwide market
- Benefit package (private medical care, sport pass, co-financing lunches, language and other trainings)
